

Safety & Health Policy

1. ATREC is committed to care for the safety and health of its employees so as to create a safe and conducive environment for innovation and creativity.
2. We shall establish, maintain and continually improve our safety and health management system to ensure the well-being of all our employees and to comply with the relevant safety and health legislation and requirement.
3. We shall establish and maintain a safe workplace for our employees and ensure that our activities do not affect their safety and health. We shall share safety lesson learnt with our employees to raise their safety awareness and competency level.
4. We will continually review and update the safety and health policies and management system; communicate with our stakeholders including customers, collaborators, consultants and vendors with the aim of getting the best industry practices in continually improving our safety and health performance.

Dr Richard Kwok
Chief Executive Officer
