

## **Safety & Health Policy**

We are committed to achieving research and developmental works through safe and healthy workplace.

We shall promote healthy lifestyles and prevent injuries and occupational illnesses through proactive risk assessments and mitigations.

We shall comply with all regulatory requirements and relevant international safety and health practices and standards.

We shall communicate our safety and health policy with our stakeholders and encourage open reporting and sharing of information.

We shall periodically review our set goals and continually enhance our practices and controls.

A handwritten signature in black ink, appearing to read "GK", is positioned above the name of the signatory.
